

MaxiGrip Standard MX 39 2T/3T

Barrier Closure Protection

MaxiGrip Industrial Zippers & Plastic Closures

Whatever you design or manufacture, MaxiGrip® Plastic Zippers offer a better way to make it open, close, and join together. The MX 39 2-and 3-track is ideal for heavy-to-industrial strength duty flat or horizontal closure applications. It provides a perfect seal with virtually every plastic, woven or non-woven material.

Product Drawings & Specifications

This sketch is for reference only. Dimensions vary according to raw material.

MX 392T/3T pull strength ranges from 20-30 lbs. Values vary between materials, durometer, and fullness of track teeth.

NOTE: Figures based on testing done on an Instron model 3343 based on 1 inch sample at 20 inches of travel per minute with a 100 pound load cell.
